CHOICE
NARCISSUS
BULBS

174 SOUTH GROVE ST.

East Orange

NEW JERSEY

To My Patrons:

The growers who produce our bulbs on contract, have our explicit instructions to send us only the very best the season affords.

We pay a premium for these specially picked stocks, and we feel confident that no finer bulbs can be purchased anywhere.

Our stocks of NARCISSUS cover the very finest varieties in commerce today. We go over our lists each year, and with the record of our field observations before us, we eliminate those that have not proven themselves up to our standards of merit and quality, while new varieties that show improvements on older types are added.

The quality of my bulbs has proven their worth by many awards at all the leading Flower Exhibitions.

Signed:

EDWARD A. MANDA

RED GUARD. We draw particular attention to the fact that this variety displays a decided copper apricot tint in the perianth, an important advance towards the all-orange Daffodil. The form and texture of the petals is all that can be desired and they overlap perfectly. The cup is a magnificent solid blazing orange red. An additional value is found in its habit of frequently producing two flowers to a 20-inch stem. \$10.00 each.
SEA GULL. Large, spreading, pure white perianth; cup canary yellow, edged apricot. Very charming.70	5.00
SUNRISE. White with primrose bar down the center of each petal; large open crown of orange yellow with scarlet margin. A new color arrangement that is peculiarly attractive.	2.50	20.00

Narcissus Multiflora

(Except where noted, prices quoted are for extra-select double-nosed bulbs.)

Under this arbitrary classification we list only two varieties for the present. We placed them under *Incomparabilis* last year, but as they produce from 2 to 5 flowers per stem, they would fit better under *Poetaz*, were it not for the fact that the florets are so large that there is no comparison with the usual *Poetaz* varieties.

	Per 12	100
STELLA POLARIS. In color, size and form it suggests <i>Sir Watkin</i> unmistakably; also in length of stem and foliage. <i>Sir Watkin</i> probably was one of the parents and a <i>Poetaz</i> for the other, as it has the latter's mild perfume. Produces 3 to 5 handsome flowers per stem...	.85	6.00
FAIR ALICE (Gold Else). Evidently the result of crossing a yellow <i>Incomparabilis</i> with a yellow <i>Poetaz</i> variety. It produces from 3 to 5 flowers per stem. The size and color are on the order of <i>Incomparabilis</i> <i>Homespun</i> , but with a longer crown, and the mild perfume of the <i>Poetaz</i>	1.05	7.50

Poetaz Varieties

(Except where noted, prices quoted are for extra-select double-nosed bulbs.)

ADMIRATION. Pale yellow cups edged scarlet. A most effective and handsome variety for the shows; 6 to 8 florets to the stem....	1.30	10.00
ASPASIA. Far superior to <i>Elvira</i> . It has more florets per stem and the perianth is purer white, also larger than <i>Elvira</i> . For forcing <i>Aspasia</i> is greatly to be preferred.		
Double-nosed bulbs70	5.00
No. 1 round bulbs50	3.00
CHEERFULNESS. Double white <i>Poetaz</i> hybrid; 3 to 4 large flowers on a strong stem. While the general effect of the coloring is white there is a suggestion of pale yellow at the base of the petals.	1.30	10.00
EARLY PERFECTION. An improved <i>Elvira</i> . Handsomest of all the white and yellow <i>Poetaz</i> varieties. Can be forced to bloom early in January.	1.00	7.00
ELVIRA. Pure white, yellow eyes; 3 to 4 large flowers per stem. Fine for midseason forcing.		
Double-nosed bulbs60	4.50

Double-nosed bulbs85	6.00
No. 1 round bulbs55	4.00
JULIET. Pure white, fine cup margined scarlet. Poets require more room in the flats than the bulbs indicate. They need more light, more water, more air and less heat when grown under glass than most other Narcissus.		
	1.05	7.50
LAUREATE. One of the largest Poets. Petals quite fleshy and nicely over-lapping; cup broadly edged deep crimson scarlet. A little later than Horace and not quite so tall. We would place this with the outdoor show flowers.

ORNATUS. White, cut margined red.		
Double-nosed bulbs60	4.50
No. 1 round bulbs45	2.75

FUE DE JOIE. Another pattern in pure white and brilliant orange scarlet. Not as full double as "Mary Copeland." \$5.00 each.
MARY COPELAND. Creamy white with deep orange center. One of the handsomest flowers in all the Narcissus family. Very late. \$3.50 each.

Double-nosed bulbs	1.00	7.00
No. 1 round bulbs55	4.00
PRIMROSE PHOENIX. Primrose yellow, large, rose-shaped flower, long stems. We recommend this variety as a more satisfactory double form than Double von Sion, which, under American conditions, sometimes acquires an ugly green color.

Jonquils and Campernels

Double-nosed bulbs	1.00	7.00

We furnish a mixture that anyone may proudly show to his neighbor or friend, for it is made up of the thousands of bulbs that "Volunteer" after the previous year's digging. Our giant trumpets are there as well as the redcups and Leedsii's. It is probably due to the many pleasant surprises in it that our Grand Mixture sells so well.
